Sketch2React
Welcome to Alpha 0.60

🎉👨🏻‍💻 Blend modes! Shadows!

Oh my what an update we have for you. There where so many new features that we skipped a couple of release numbers and went straight up to epic **0.60**.

Hold on to your horses here it comes:

Alpha Release 0.60 Notes

- New element: Oval
- Shadows and inner shadows
- Layer blend modes: We now support Sketch blend modes
- Sketch 52 & Mojave support
- Hotspots (W) as links: Use the **Add Link to Artboard (W)** to link

buttons and the navigation to other artboards

- Downloaded HTML files now get the names of the artboards which makes publishing to servers much easier
